GENERAL INFORMATION

ENTRANCE REQUIREMENTS

Preliminary Year: The Ontario Secondary School Graduation Diploma in the general course, or an equivalent certificate.

First Year: Satisfactory completion of nine Grade XIII papers.

(a) Arts: English (2 papers), another language (2 papers) and

  either: Mathematics (2 papers) or a third language (2 papers) and any other three papers

    or: Music and any other four papers.

(b) Commerce (Business Administration)
      English (2 papers), another language (2 papers), Algebra and one other Mathematics paper and any other three papers.

ADULT SPECIAL

Students who are over twenty-one years of age, though they may not be able to present qualifications for admission to candidacy for degrees, may be admitted to a few courses, if, in the opinion of the professors in charge, they are qualified to pursue satisfactorily the courses chosen. These special students must satisfy the professors by regular attendance and attention to the work of their classes. They will not be allowed to advance from year to year in a department without taking the regular examinations.

An adult special student who has satisfactorily completed one year's work in the General Course will be considered to have secured standing sufficient to permit his proceeding to a degree on the same terms as one who at entrance presented complete entrance requirements.

APPLICATION

Each applicant should send or bring the enclosed postcard to the Extension Office, 400 Huron Line, before 12 noon, Saturday, September 12. Each applicant will be required to submit all High School and Teaching Certificates, if any. Students who have attended other universities should have transcripts sent to the Registrar well in advance.

REGISTRATION

Students who have been previously registered are urged to send the enclosed card prior to noon, September 12. All students, new and old, are required to report at one of the following times for registration and **payment of fees:**

Wednesday, September 16, 1-4 or 7-8 p.m.
Thursday, September 17, 1-4 or 7-8 p.m.
Friday, September 18, 1-4 or 7-8 p.m.
Saturday, September 19, 9:30-11:30 a.m.

FEES

Fees are to be paid at registration. When space permits, non-credit students may be permitted to attend lectures on payment of standard tuition fees. Such students do not have examination privileges, and cannot count work done in this category toward any degree or diploma issued here or elsewhere, now or in the future.

Tuition: Resident .... $55.00 (full course)
27.50 (half course)
Non-Resident .... $75.00 (full course)
(A student from outside the   37.50 (half course)
British Commonwealth of Nations)
Library and Administration fees $10
Science Laboratory fee $20
Language Laboratory fee $10
Pro tanto (for transfer of credit from
another University) $10
M.B.A. and M.A.Sc. courses $100

WITHDRAWAL AND REFUND POLICY

Students who are forced to withdraw from a course or from the University are required to notify **the Registrar and the Bursar** IN WRITING and to give their reasons for withdrawal. The obligation of teaching and accommodating a student rests on the University on a yearly basis. Hence:

(1) All tuition credits or refunds shall be made entirely at the discretion of the University.

(2) The portion of the fee refunded is determined by the date of application for refund—NOT THE DATE OF WITHDRAWAL.

(3) No application for refund will be considered if received after October 24 in the first semester, or after February 13 in the second semester.

REGULATIONS

Majors: In selecting his subjects in First Year, the student should include **the subjects appropriate to the major or Honours course** he wishes to undertake. (History majors elect History 10. Students planning to enters Honours Business Administration elect Business Administration 15 and Economics 15 or 19).

Options: An "option" means a subject **outside the major field** (or fields, in the case of a combined major) not already taken. Options in each year may be drawn from the natural sciences or mathematics, with permission of the Dean of Arts and Science, and options in Second and Third Year shall be chosen in consultation with the head of the department in which the student is majoring. (An extra charge may be made for options involving laboratory work).

Economics 15 or 19, Psychology 15 and at least one of History 10, 11, 24, 27, 36, are **required for graduation.**

No subject may be counted more than once.

Regular Examinations: The regular examinations will be held in January and May.

If a student writes more than one examination in a subject, the last mark he obtains shall be the only one considered for academic credit.

In all subjects, the ratio of term-work marks to examination marks is determined by the teaching staff in each subject; neither term mark nor examination mark, however, will count for less than one-third nor more than two-thirds of the final grade. To pass a subject, a student must obtain an average of 50% on term work and examination. The Committee on Academic Standing, however, may at its discretion withhold credit if the mark in either term work or examination is below 50%.

Term work in a subject will not be credited to a student beyond the year in which the subject is taken.

Special Examinations: A Special Examination is an examination other than the regular examination in the subject involved, Spring or Summer, permitted by the Dean for a grave reason and after special application. No special examination may be assigned except on the recommendation of the Head of the Department concerned, after consultation with the instructor involved.

A student who fails to appear for a paper at the time set on the examination timetable will not be allowed to write on the examination paper thus missed, but may be permitted to write a special examination upon fulfilment of the conditions indicated in the above paragraph at a time determined by the Registrar after consultation with the Department and Instructor involved.

Supplementals: A supplemental examination is one set on work in which a student has been conditioned (40 to 49%). This examination will be held in August for those who have been conditioned in any subject. (See first paragraph under **Failures**).

Students conditioned at the final examinations should attempt to remove their conditions at the supplemental examinations of the next August. If a condition is not removed the subject must be repeated.

Supplemental examinations will not be allowed any student in more than two full subjects.

Students whose grade is F (less than 40%) in any subject may not write a supplemental. They must repeat the subject.

A student who has failed his year is not permitted to write any supplemental or special examinations on the work of that year.

Failures: A student in the General or Honours program who fails to obtain 50% in the regular or supplemental examinations in a subject will not be eligible for re-examination without a further year's attendance at the lectures in the subject in which he has failed. **The student must**

repeat that subject, if it is prescribed, the year after failure, no matter what subject or subjects must be postponed.

A subject may be repeated once only.

Subjects which depend directly upon the work of a preceding year may not be taken by a student who has failed in the work of the preceding year.

A student in Second Year shall be required to obtain 60% or better in at least three subjects by the conclusion of the August examinations; if he fails to do so, he shall fail his year and lose credit for all subjects of that year in which he has obtained less than 66%. He must repeat his year, and if he fails to complete this requirement, must withdraw.

Appeals: A student who wishes to receive special consideration on account of serious illness or bereavement or other grave reason should communicate with the Registrar's Office before the close of the examination period, and should submit supporting documents (e.g. a medical certificate) within a week. Requests for consideration on these grounds will not be considered after the official results have been released by the Registrar's Office.

A student who wishes an examination paper re-read, should submit the request in writing to the Registrar's Office within six weeks after the close of the examination period, together with a fee of $10. In the event that the grade is changed as a result of re-reading, this fee will be refunded.

Appeals should be addressed to the Secretary of the Committee on Academic Standing, and sent to the Registrar's Office.

Miscellaneous: Any student of any year who shows an unsatisfactory knowledge of spoken or written English must do additional assignments until his work satisfies his instructors.

When a student begins a foreign language in the University, no credit towards a degree will be given for the first year of that language unless that year is followed by a second year in the same language. No student may begin two foreign languages in the same year.

A student may take subjects for credit in Summer Schools conducted by this or other institutions, subject to approval by the Dean. Such subjects, if approved, may be counted towards degrees. No student, however, who enters the University with Junior Matriculation standing alone, will be permitted to obtain any Bachelor's degree in less than four complete academic years.

Every student entering the University in Preliminary or First Year is required to complete satisfactorily a course in Library Science.

Grading: Students in the General Course will be ranked in order of merit in each year and in each subject in six grades, A, B, C, D, E, F. The minimum for Grade A is 75% of the marks obtainable; for Grade B, 66%; for Grade C, 60%; for Grade D, the minimum passing grade, 50%. A mark that falls in Grade E, 40 to 49%, entitles the student to a supplemental, subject to the regulations governing supplementals (see above). Grade F, less than 40%, indicates a total failure and the necessity of repeating the class.

No student will be admitted to a Bachelor's degree who has not obtained ta least Grade D on all the prescribed and elective work of his course and who has not obtained Grade

C on half the work of the senior year, and an average of Grade C in all the subjects in his major belonging to the Second and Third Years, exclusive of minor requirements.

A Candidate for a degree must attend intramural classes of this University for two full academic years, or for one full academic year and two summer sessions, or for five summer sessions. This requirement is reduced to a minimum of one full winter session or three summer sessions by the transfer of credit from an approved college or University. (Attendance in the Evening Division or as a part-time students in the regular winter session (days) is the equivalent for purposes of this regulation of attendance at the summer session). Each transfer student must complete at least two subjects in his major field at this University.

PROGRAMS AVAILABLE THROUGH
UNIVERSITY EXTENSION

ARTS:

Students may complete the requirements for a **Bachelor of Arts** degree in the General Course by attendance at evening classes (winter) only, or at evening classes and Summer School, or at Summer School only, and by completing satisfactorily the following program:

Two options outside the major field.
Two full subjects from the major field.

At the present time Extension students may major in English, History or Psychology, or may obtain combined majors in any two of the following fields: Economics, English, Geography, History, Psychology.

SCIENCE:

Students may complete the Preliminary Year of the Science course by taking the following subjects offered in the Evening Division:

English 5, Speech 15y, Library Science.
Chemistry 1a, Physics 1a.
Mathematics 1y, 2y, 3y.
Language A or 2.
Philosophy 15.

This qualifies for admission to First Year General Science, which is prerequisite for all courses leading to the General and Honours B.Sc. degree, provided the student has an average in Mathematics and Science of 60% and an overall average of 60%; it also qualifies for admission to First Year Engineering, leading to the B.A.Sc. degree, provided the student has an average of 60% in Mathematics, 60% in Science, and an overall average of 60%.

DIPLOMA IN BUSINESS ADMINISTRATION

First Year	Second Year
Bus. Ad. 15	Bus. Ad. 250, or 360
Econ. 15	Bus. Ad. 454

Third Year
Any two full-year Bus. Ad. subjects not already taken (351, 356, 453, 454)

This program is offered in the evening division only. The minimum time for completion is 3 years; it may be spread over a longer period if the student wishes. These courses may be applied towards a Bachelor Commerce degree.

This program is designed primarily for business men with experience. Applicants under 25 years of age will be expected to have Senior Matriculation standing (8 papers) or equivalent. Extension courses of the Preliminary Year are available for this purpose.

The average required for the Diploma in Business Administration is an overall "C" average in the six subjects. In the event that an applicant has complete equivalent subjects elsewhere, he may substitute other subjects with the consent of the Department of Business Administration. **No supplementals are allowed.**

MASTER OF BUSINESS ADMINISTRATION

In view of the demand by industry for competent personnel having broad post-graduate studies in the general field of Business Administration, and in the interest of many graduates in the sciences and arts in expanding their knowledge, the Master of Business Administration is being established on an evening basis.

The purpose of the program is to provide broad post-graduate studies in Business Administration. The graduate student is afforded the opportunity to expand his knowledge of the principal phases of business administration, and thereby to prepare for responsible performance in private business and public service careers. General rules and principles of management are stressed, and the case method of instruction is used to bring reality to the study of administrative practices.

The admission requirement is that the student be a graduate of a recognized college or university. For 1959 to 1960 the subjects offered will be:

Bus. Ad. 489   Accounting
Bus. Ad. 490   Statistical Methods in Business

GRADUATE COURSES IN ENGINEERING

Students graduated from accredited Engineering schools may proceed toward the degree of Master of Applied Science. The program is now being prepared. The following subjects can be taken for credit in the year 1959-60:

Chemical Engineering—Thermodynamics
Civil Engineering—Advanced Structures
Electrical Engineering—Transistor Theory and Practice
Mechanical Engineering—Heat Transfer

In subsequent years additional subjects will be offered in order to complete the full Master's program.

A minimum of ten students must register in any subject before it can be offered.

For further information, contact Dr. DeMarco, Department of Engineering, Essex College, Phone: CL. 4-9246.

The Evening School reserves the right to cancel any subject in which fewer than twelve students register, and to make such changes in timetables as circumstances may require.

The Office of the Director of Extension, 400 Huron Line, is open Monday through Friday, 10:00 a.m. to 3:00 p.m. Open evenings (Monday to Thursday) 6:30-8:00 p.m. and Saturday morning by appointment. Phone CL. 4-9246, Extension 26.
