Our Principal

During his lunch hour, Mr. Durocher maintained a constant surveillance of the cafeteria.

I wish to thank the editor of the REBELOGUE for giving me the opportunity to express my thoughts about the school year of 1968-69.

This school year was an inspiration and a challenge to me. After having been so closely connected, man and boy, with another school for forty years, suddenly I had to pull up stakes, move across the city, meet new people, work with new teachers and students, and generally begin a new life! This was almost enough to scare me out of my wits. However, the year has passed with great speed.

I soon found that I liked my new world. My work was interesting, a definite challenge, and most exciting. I was working harder than I had ever worked before, but loving every moment of it.

Now I would like to express my thanks to the people who have made this new life pleasant for me: to Mr. Durocher, thanks Sir, for your understanding and patience with me in a new job; without your help, it would have been difficult; to the

teachers, thanks for your kindness, friendliness and forbearance when I did something with which you did not agree; to the students of R.S.S., thanks for your smiles and greetings in the halls, for your understanding and compliance with sometimes useless rules and regulations; to the office staff, thanks for your help and recommendations in situations not yet familiar to me; to the custodial staff, thanks for your co-operation and friendliness in fulfilling my requests for work in your area; and finally to the kitchen staff, thanks for keeping me well-fed.

To the REBELOGUE staff, you have done a great job. To the students of Riverside S.S., you have a great school! Be proud of it.

William Rogia

It is with a feeling of regret that I write these, my farewell words for REBELOGUE. I have enjoyed being Principal of Riverside Secondary School and I am sad at the thought of leaving its fine student body and loyal staff.

But I am happy, too, in that these past two years have been satisfying and rewarding to me. When I came to Riverside, I naturally wanted to go on building up the confidence of the students so as to lead them to take pride in the remarkable achievements, scholastic and athletic, which they had proven themselves capable of. I should like to think that Riverside "spirit" grew a little in the short time I have been here. But, most important to me personally, have been the deference, courtesy and understanding which the students of this school have shown me. The memories of their helpful attitude, generosity and affection will always be a source of strength to me.

The learning atmosphere in any school is influenced by the attitudes and values of its principal and staff. Here in Riverside, I have made a sincere effort to give students as much freedom as I reasonably could. And I have always tried to listen to

student viewpoints. This attitude on my part is perfectly natural. I like young people and have faith in their judgment. I respect their desire to have sense and meaning in their education. I believe too, in what schools can do for people, for I am convinced that an individual's freedom is directly related to the amount of real education he has. That is why--trite as the advice may seem--I want every student in this school to benefit as much as he can from his education. My greatest hope for R.S.S. is that it may always be a strong force in helping young men and women to realize their capacities and to develop their gifts.

It is impossible for me to express my gratitude to Norma Chou and her staff for all the planning, artistry and hard work which went into this book. I look forward with keen anticipation to my new duties but I cannot forget that my association with this school, its staff and students, has been friendly and pleasant. This REBELOGUE preserves for me precious memories.

E. U. Durocher

Mr. Durocher and Mr. Rogin always keep themselves well-informed on the conditions in the halls.

We live in a spiralling, pulsating, fast-paced world of perpetual motion and of change. Day after day we rush about, barely able to catch our breath. But living is more than just running around, scratching the surface. So Rebeleque '69 has tried to stop time momentarily, to arrest its motions, to trap one year of our fleeting lives.

Living means being involved, involved in everything which goes on about us. Living means being part of the crowd. Otherwise you stand alone in your own small cage.

A black and white checkerboard pattern covers the entire page. The pattern consists of alternating black and white squares. In the lower right quadrant, the word "GRADUATES" is printed in a simple, black, sans-serif font. The text is centered horizontally within that area and is clearly legible against the white squares of the checkerboard.

11E CLASS COLUMN

- Bob Graham

Greetings and salutations from the bull-pen of the B & C Section of 11E! Sorry about that formal opening, but you know how fussy we B & C people are.

It appears that we have a number of good athletes in 11E this year. George Huckle, a member of the Riverside Swim-Team is having a good year. And for all you avid Badminton fans Ken Machina was victorious in the tournament. Then too, Al MacKenzie is giving the Rebel Hockey Team a boost this year.

Now for the academic side of things. Judy Colborn is taking French and Spanish while Eleanor Moellendorf is studying both French and German. Seems that we have a well-versed class this year!

Mr. Michie, our Bookkeeping teacher, does seem to be having his problems with us this year. We have developed a new language course which is practised only during his classes. Ian Thompson appears to be quite an experienced teacher of this language. If none of you understand this language, just ask any one of the guys from 11E--but I doubt if he will tell you.

Well, it looks as though I have run out of relief-help in the bull-pen, and it's time to move on.

Remember B.B--you know who you are--sock it to 'em.

This garrulous mob,
Your eardrums they'll rent
Sue Martin's no better--
Though she's class president.

Pat Casey and cohort,
The faithful Lyn Brett:
Their motto eternal--
"You ain't seen nothin' yet."

Janice R. and Janet C.,
Forever confused:
To the difference between them,
You never get used.

Rosemary A. --
Our leader of grades.

Could stage their own "laugh-in"
While Bette C. continues
To argue with Mr. Warkentin.

NICE GUYS IN 10K

- Rick Green and Jim Munroe

White socks and marbles, that is his game,
Auto is his subject, Tim is his name.
Then there's Rick Chappus, so strong is he,
That when there's trouble, he's the first one to flee.
Rick Charron's our man, a soldier so bold,
He never does homework, or so I've been told.
Then there's "Crutch-more", better known as Mike C.,
The clown of the class, no subjects has he.
Grayling's a sly guy, a frat if none,
Mike Dresser's so feeble, always shootin' the gun.
Ray is a draftsman, a drawer so fine,
His drawings are sharp, and perfectly divine.
Mark is our drummer, a fine chap is he,
Auto he likes, and his VW with glee.
Kevin's a cool head, with auto on his brain,
But that's all that's in it, with nothing to gain.
Ken is a cool guy, nature he enjoys,
He sits home studying, and plays with tinker toys.
Steve is our comedian, a joker at heart,
At school he's no brown, but at jokes he's quite smart.
Jim is a nice guy, always on Twelfth Street,
His subjects are Drafting, and walking the beat.
Rick Green is our frat, he likes Science so fine,
But his main interests are women, more women, and wine.
Auto Mechanics is liked by Brian Hallman,
When it comes to work, he's better than all men.
He acts like a mother, but auto's his aim,
He's six feet tall, and Martin's his name.
Herb John likes two, but they don't mix,
He likes to draw, and he likes to fix.
Where drafting is heard, you'll find a boy,
And this boy's name is Bob Leavoy.
On his camel, Ed looks like a king,
Playing with electricity, that's his thing.
Bob McClellan's his name, drafting his game,
And poor Ed's jokes are really his flame.
As Vic drafts, he'll give us the word,
That the name's not Vic, but Mr. Blackbird.

(continued)

NICE GUYS IN 10K (cont'd)

Give him a T square, and a pencil,
 And Dave will draw us a fine-looking stencil.
 For Jacques, Track's the game, Football the same,
 When he comes to school, drafting's his aim.
 Marc may be small, but when it comes to welding,
 He's better than all.
 George Ponc, George Ponc, get on the ball,
 For "Gearbox" surely can't be best of them all.
 Ron likes to race, and also to speed,
 And when it comes to Auto, he pays special heed.
 He fixed his transmission, and also his horn,
 A true mechanic, John he was born.
 And now in closing, a farewell to all,
 Don't cheer us on, teachers, --we'll be back in the fall.

10L - A WELL-CONSTRUCTED CLASS
- Al Laporte

This is a well-constructed class. It consists of all the necessary boys to drive any teacher to insanity. But we get along very well together since most of us were in the same class last year. Although we have loads of fun (I mean, make trouble), we also learn whatever happens to slip through the fun part. Seriously, however, we all intend to do our best to learn and to succeed. That's because fifty-percent of the married people are men and bread-winners, and someday we might ourselves be in that unfortunate position.

Now for some concise evaluations which a well-constructed class places on their courses:

DRAFTING - Accented and accentuated study,

MACHINE SHOP - The usual grind,

MATHEMATICS - U. F. O. Unknown,

ENGLISH - Full sentence, solitary confinement,

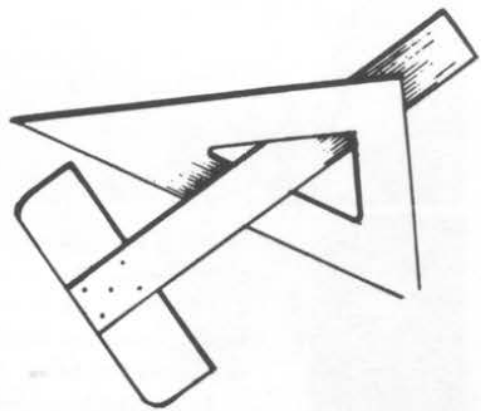

GEOGRAPHY - Who was ----- last week-end?

HISTORY - "Black Streaks Across the Floor" by Who

Knows?

SCIENCE - Do nothing, prove nothing,

P. E. - Rally around the goal posts.

Randy Maisonville, Jack McCloskey, Jim McKeegan, Ron Ogg.

Cam Pickering, Rick Piec, Randy Renaud, Mike Topolie, Peter Wynarchuk.

9A

9A - A MUSICAL CLASS - Roy Strome

9A is a five-year Arts and Science class, and many of its students belong to the school band. It is a class of contrasts including one of the shortest boys, Roy S. (four feet eight) and one of the tallest, Ted F. (six feet four).

Karen B., David G., Heather P., Bill P., Wendy U. and Sharon W., our trumpet players, had problems at the beginning of the year. But our music teacher managed to straighten them up, and they are now providing us with fine trumpet music.

Nina K., Nancy H., Abbey H., Sue-Anne S., Diane S. and Cathy T. all provide the foundation of our music in the clarinet section. The band wouldn't be a band without Wendy J., Helen K., Debbie M. and Norma S. in our flute section. Roy S. provides us with saxophone music.

In the bass section, we have Audrey V. and Warren F. playing tubas, Anne H. playing the baritone and Ted F.

and James L. playing the slide trombones. Dennis T. provides French Horn music along with Joanne T. And to supply the beat, we have James H., Gerry M., and Rudy W. in our percussion section. Greg J. has a spare period each day instead of band, but he used to play clarinet.

In academic subjects, the top student is Rudy W. and very close behind him are Sue-Anne S., Bill P., and David G.

9J IN VERSE

- Betty Godwin

In our class, we've thirty girls,
 Some with waves, some with curls.
 There's our president, Simone Peladeau,
 There's not a thing she doesn't know.
 And then for a laugh,
 There's dear-hearted Laurie Metcalfe.
 Oh yes, there's Mary Lynn Brown,
 Who never wears a discouraging frown.
 Take Pat Parent, what a brain!
 And yet she claims she's insane.
 Our new girl, Kathy Fenn,
 Sits all day like an old mother hen.
 And, too, there's jolly Nicola Rossi,
 Who's the boss that isn't bossy.
 Of course, there are many, many more,
 Smart and dumb girls galore.
 But when together they're 9J,
 And no matter what one may say,
 In all our minds, may it lay at rest,
 That we're the very, very best.

THERE IS ONLY ONE
- Kevin Davidson

Who is the one we know so well,
Who spikes his coffee and hates to tell
The bad ones, who sit and tap their feet,
That they'll soon have ten maps to beat?

Yes, for the naughty ones, he's really a nag,
For a slap and extra work are his bag.
Oh, the one we know so well,
The one we truly hate to tell,
Whose extra work is to "keep us busy",
While, call him DUKE, he'll slap ya silly!

"Just turn around, eh" is his famous quote,
Which he says to some in a low, serious note;
"Stand, and a little louder, please" is still another,
Which gets the goat of some of the others!

But some don't like him and some do,
Anyway, what's it to them about his VW?
So what if he doesn't always pick up a hiker?
To us, who know him, there's only one Mr. Snyder.

FAVOURITES

A KICK TO "SOCIETY"

Welfare, slums--
Lots more burns.

Cities sleep in crime,
Youths caught stealing whimper and whine.

Red power, black power,
White men getting sour.

Rich men have more stocks to sell,
Honest labourers don't live as well.

Too many plastic hippies
Living in filthy cities;
Hide behind posters, pot and beads.
Rejectors of society think the answer is LSD,
Lovin', groovin' and anti-war pickets provide activity.

Parasites on society make smog everywhere.
What have you done to clean the air?

Society needs a big shove--
Towards LOVE.

- Bruce Gallinger, 13C

THEY, YOU AND I

They are lying in the streets, dying in the streets
Of hunger, and sickness, and wounds,
Uneducated and lost,
They are confused by the guns you send.

You sit in split-level comfort
Thousands of miles away.
You eat and laugh while they starve and wail
Thousands of miles away.

I see the ugliness
That man has created.
I cry with shame--
Yet what have I done to help?

- Liz Mingay, 13C

THE WORLD AT WAR

High above the battle hue
 The aerial forces clash;
 The sky transformed to bothered blue
 Amid the fire and crash.

Across the plains in Death's grim hour
 The sounds of battle deafen,
 Sustained by only dwindling power
 Of massive forces sadly stricken.

Offshore, the naval forces strive
 For conquest of the wave.
 What battered vessel will survive
 A morbid watery grave?

Death, hovering o'er the bloody site,
 Sounds trumpet to retreat.
 Weary warriors end the fight,
 In terrible tribute at His feet.

- Scott Scorgie, 13C

WAR

A woman
 Alone and crying
 Her husband dead
 Taken by the war.

Children cry.
 Women weep.
 They are alone,
 For war has taken the men.

A little bird
 Up in the tree,
 Singing, singing
 Prettily, on.....on..

- Wendy DeVriese, 13A

Once we shared victory,
 Now we share death,
 The enemy fought fiercely,
 And we pay the debt.

Once we were many, now we are few;
 But now defeated, our leaders they slew,
 And in death feel no pain,
 But the agony of destruction will rest
 in their brain.

DEATH

Death was an Angel of Mercy
That came on an ebony wing;
She passed over my humble abode one day
And sweetly began to sing:

"I bring not grief for 'though you cry,
One day you will understand
That I bring Peace and gentle tribe,
And finish Pain and his band."

"You think of me as Dark and Dread,
For your loved ones are gone, you say,
But now they live in eternal Peace;
You'll not regret, some day."

And when my tears washed sorrow away,
I smiled, and my heart was at ease,
For this Angel of Mercy, as she had said,
Had brought it eternal peace.

- Sharon Wilson, 9A

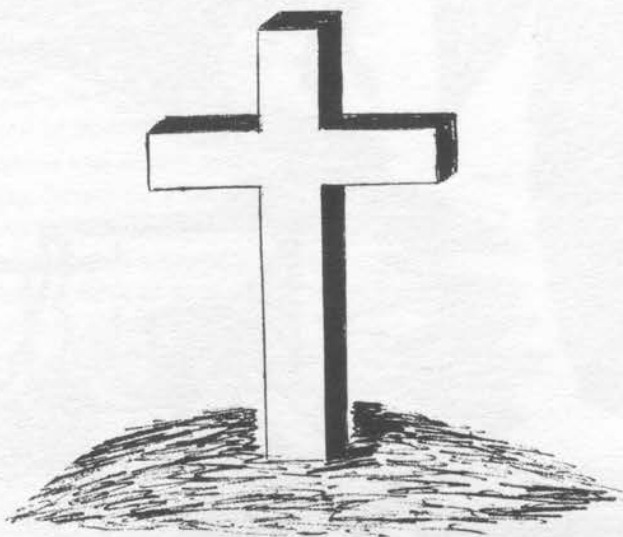

DEATH

It came knocking,
Uninvited,
Dressed in black,
Still and quiet,
Gliding smoothly,
Determined,
Harsh and efficient,
Sparing none.
Peeping in doors,
Leaving its mark:
People crying
Sadly and softly;
A child sleeping,
Too motionless.
Moving on quickly,
Past the clock,
Ticking loudly;
All is quiet
But the clock.
It flowed away
Through the door.
A car roared by,
A screech of brakes;
It left again.
Visiting houses
One by one,
Unwelcome guest.
None it visited
Ever saw it
Again.

LOVE

Love can be a mysterious thought;
It's not usually sold,
Not usually bought,
For it is mainly a tender thought.

Love is giving
And not taking,
For life's worth living
When love is making.

Love is tender,
Love is sweet,
Love is loving,
And always joyous to greet.

Love is joyous;
Love's a blossoming tree;
Love's worth receiving;
Love's for me.

Love is a feeling
For young and old;
Love is painful
For those too bold.

- Dale Taylor, 11J

When I'm lonely.

THESE I HAVE LOVED

The crunching sound as feet meet snow,
An autumn day when the leaves do blow;
The ringing sound of children's laughter,
Tiny mice playing in the rafters;
The smell of freshly-laundered clothes,
Lacy ribbons and velvet bows;
A bustling library on a busy night,
The thrill of screaming with all my might;
The excitement of a football game,
The dreams I have of fortune and fame;
Apple pie and Cheddar cheese,
The brilliant hue of fresh spring flowers,
Ancient castles with their turrets and towers,
The innocence of a tiny dove--
These are a few of the things I love.

THE WORDS OF

Ravi Mathash

REFLECTIONS ON NATURE

While travelling through the harsh loneliness
of nature

I stopped, I looked.

Even here, was man evident,

As ugly stalks of human skill protruded,

To bring unnatural comforts.

And as I walked this ecstasy of nothingness,

All was here.

For nature in her methods had seen fit

To bring to earth her ideas and samples,

Throwing all in one, to make her pattern:

The forest.

Down in the valley the waters had gathered

Drawn by nature's natural engineer,

The beaver.

But she has not the foresight to realize

What her natural acts cause.

Life dies.

But life lives, for one takes life from another.

The water lilies, lifting their heads high in
the drift,

Take life from the drowned maple.

Life proceeds.

King Pine, in his majesty, from cliff-top
Extends his tip to heaven,

As if beseeching God and man to understand
That nature, to live, must be left alone.

And all the king's subjects,

The bloody maple, the whispering aspen, the
dying elm,

Beseech their king to make his wishes known.

Life struggles.

Pink-grey rocks of nature's hand stand firm,

With parasitic lichen ravaging, eating,

Until she dies, and yet one lives;

And as it lives, a new life springs forth,

The dry green of grass and bush.

And, as the pink of nature's newness

Turns to the green of maturity,

One ponders, and one's thoughts turn to this:

"As you stand here, human, take heed

And listen to nature as she speaks.

Do not behave as one who owns nature

For you cannot.

She is free, and shall ever be.

Man is not, and will never be."

Forever Eternally.

FAILED LOVE
(Dedicated to L.R.T.)

In the warmth of a winter's rain
A dead man walks the crooked streets.
He laughs with a purple sadness coming from deep
within his shallow heart.
The torture of luxury clings tight to his naked
throat.
His wide eyes narrow to quench his eternal thirst
With a luminous psychedelia of fiery drops
Against the darkness of a sunlit sky.
The green in his red face flames like the fire
of Heaven.
He is a dead man who walks.
His friends know him not.
He loved once but love has failed him.
His heart can no more love.
For this he sheds a laughing tear.
For this he smiles a smirk of fear.
Death is his partner now, for what else can he
learn to appreciate?

DEDICATED TO THE ONE I LOVE

As fate in life and reputation
Fail my world without redemption
I weep for me so mournfully
And oft I curse my fate.

My prayers to heaven still unanswered
They ask for hope and peace beloved,
Give me no rest when life's at best
And life still thrives in hate.

As yet my eyes regard my form,
So slight in hope, my thoughts do scorn,
To know thy love my heart does move,
Then I with rich shout trade my state.

CLASPING AND KISSING

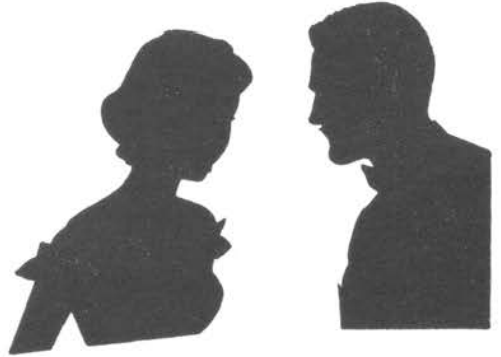

The air was still, the moon was bright,
And as they lingered yet,
Two shadows alone against the night,
As two young lovers met.

He smiled at her so tenderly,
He conquered all her fears,
He made his pledge so solemnly,
Her eyes welled up with tears.

She tilted her head and closed her eyes,
So sure of a passionate kiss;
What happened next was a big surprise,
She wasn't expecting this.

"You ate twelve onion rings, I fear,
And your breath is bad," he said,
"I really ought to kiss you,
But I'll shake your hand instead."

- Diana Wilson, 11A

COURTESY IN A VEHICLE

It was a Friday night, I was goin' to the game,
I thumbed awhile, and finally somebody came,
It stopped, I looked, there was a girl in the car,
And her destination wasn't far.

But I climbed in anyhow and shut the door,
Then she punched it hard, the pedal on the floor,
We went two or three blocks, we came to a halt,
And she offered to take me in for a malt.

We both got talking, she was a real nice girl,
She was really good lookin' with that string of pearls,
And long blonde hair that hung way down her back,
And Oh boy, "Would I?" "I would, Jack."

We got back to the car and drove on a ways,
But then she pulled into an alleyway,
She shut off the car, turned off the lights,
I'll bet you can't guess what we did that night.

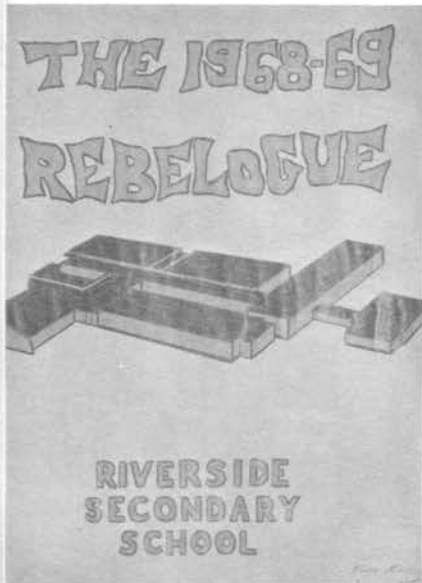

Hah, I know what you think, but I'm not bad,
I'll tell you what we did but don't be sad,
I practised my "courtesy in vehicles", boy,
All night long, just me and Joy.

The United Nations Club, a group of fifteen students, represents "young Canada involved in world affairs". The purpose of the club is to learn and educate ourselves--to be aware of the world in which we live.

We held open discussions on such world events as Biafra, the Middle East Crisis, and the Czech invasion. In February, the model U.N. was held and sponsored by Kennedy Collegiate. It was a huge success, and demonstrated the ability of today's youth.

In 1968 the Cross-Country team increased its lead as Riverside's winningest team of all time. Coached by Mr. "Dudley Doorright" Dawson, fearless leader and part-time biology teacher, Rebel teams made short work of local rivals, even the mighty Puce Penguins, advancing relentlessly towards the Ontario Provincial Championships, where Ernie Henderson distinguished himself by filling a taxi with post-race motion sickness. The Juniors, headed by illustrious house captain madman Munt ran their way to a second place team finish. The incomparable Senior team's loss was explained by the fact that the Toronto course was five miles through mountains against a field of Ontario's best mountain goats. The year in general was marked by the coming of new Rebel Midget stars and the aging of the older warriors. The season ended on a good note, though, as the revered seniors completely massacred their young successors in the Toronto motel, thus insuring a finer version of Dawson's dynamites for 1969-70.

The hard-working Rebel hockey team was in a three-way battle for first place with Assumption and Brennan during the season. The superb goal-tending of Wayne Colledge kept the fast Rebel squad in top contention. Riverside is out to keep up its reputation for being a hockey school, and this team did so quite capably. The Rebel coaching staff also deserves thanks for its patience and knowledge.

The students proved the victors, and the Staff went down in defeat at last year's Staff-Student game. After the game, Mr. Durocher and some of his team posed with the winners.

Junior Rebels

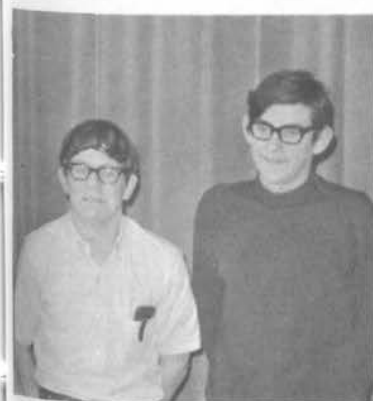

To say the least, the Junior Rebs had a fine season. On their opening game, they lost to Walkerville 7-0. A fumble on the 12-yard line was responsible for the Tartans' score. In their second game, with arch rivals, the Brennan Cardinals, the Rebs gained a 9-0 victory. Fumbles and interception played key roles in the outcome of this game. Their third game was against the Patterson Panthers. With little opposition, the Rebs marched to a 27-0 victory. In their fourth game, against the Herman Green Griffins, the Rebs roared back from a 12-0 half-time deficit to beat the Griffs 19-12. A blocked kick in the Herman end zone spelled the difference. Their next, for the Eastern Championship, against Walkerville, was truly hard-fought on both sides.

With 2 minutes to go, a punt into the Tartan end zone gave the Rebs a 1-0 lead. The Tartans roared back up the field, but time ran out before they could reach paydirt. This gave the Junior Rebels the Eastern Championship and trophy, and a ticket to the city finals, against the Massey Mustangs (powerhouse). In this game, Massey got off to a 13-0 start in the first half. With about 1 minute to play, the Rebs scored their only touchdown. The final score was Massey 13, Riverside 7, after a hard-fought, well-played battle. In their other league, the Rebs won 2 and tied 1 in 3 games, to win the St. Anne's Trophy. Truly the Riverside Junior Rebels had a fine season.

The Swim Team's Season Was a

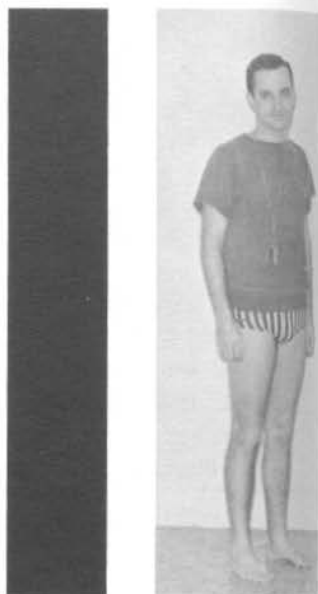

Last year, five months of hard work paid off for the Rebel swimmers, who culminated a highly successful season by winning two of four possible city team championships. During the tri-meet schedule, our swimmers showed championship form and as a unit, were the undisputed leaders in the city. They followed their winning ways by capturing three trophies at the University of Western Ontario Invitational Meet in London. Our Senior Boys won the Dr. Paul Hauch Trophy for their division. The girls won the Dr. Paul Hauch Trophy for their division, and the team as a unit won the University of Western Ontario Trophy for the overall championship.

The W.S.S.A. meet finished the season and our swimmers splashed to an impressive team victory. Our Senior Boys were first, as were our Junior Girls. Our Senior Girls placed a strong second and the Junior Boys, their ranks thinned when some of their swimmers moved up to bolster the senior squad, placed third.

Four swimmers earned individual championships with sterling performances: Dave McNair, Senior Boys; Kim Alofs, Mary Birkett and Sandi Martin, Junior Girls. Congratulations to the Rebel swimmers for '67-'68.

At this writing, the '68-'69 season of tri-meets had just begun, and our Rebels had yet to be defeated. If hard work and dedication mean anything, this season had to be at least as successful as last.

Graduation Is a Serious Affair...

For well over two hundred young people, Saturday, November 2 marked the end of one of the most important phases of their lives, as they graduated from Riverside Secondary School. Mr. William Wood, Assistant Superintendent, Supervision Section of the Ontario Department of Education, was the guest speaker, and Kent Billingham delivered the Valedictory Address. The school band and choir provided music for the programme.

Among the many awards presented were twelve Ontario Scholarships, awarded to students who had attained an 80% average in seven credits. The recipients of these were Penny Brooks, Wendy Bunt, Ann Carlsen, Glenn Chapman, Ralph Chou, James Eng, Donna Fraser, Peter Krailo, Roland Meisel, Raymond Smith, and Bryan Thomas.

Mr. Wood addressed the graduates on "Change and Values." The following are highlights of his speech:

"Your education has been mindful of your usefulness in terms of both self-satisfaction and the contribution which you will make to society. The benefit which you have derived from your course can be measured by the effort which you put into it. Usefulness is a measure of happiness. The man who does not consider himself useful cannot be expected to lead a happy or a rewarding life, nor can society regard him as a contributing member. Today greater emphasis is placed on some areas of accomplishment than on others and I believe that a reappraisal of this emphasis is necessary. . . . All (areas) involve a skill and ability to assess, to comprehend and to draw conclusions--in short, to think."

"The type of education that a person has does not necessarily determine the kind of life he will lead. People, regardless of their educational training, can be uninspiring, unhappy and unsuccessful, or they can be enthusiastic, ambitious, happy and filled with a zest for life. Each of you may choose the life you want but regardless of the choice, your usefulness will be an important measuring stick in determining your success and happiness."

"Your education has been effective if it has prepared you as an individual to take an intelligent, fruitful and honourable part in the life of our society. You have been exposed to the truths of right thinking, right acting, and right living--truths which protect freedom for yourself without infringing upon the freedom of others. You have learned to differentiate among the freedom to do what you please--which is anarchy, the freedom to do what you are told--which is dictatorship, and the freedom to do what is right."

"This age, like all others, is a time of change. The world cannot stand still because man will not stand still. He will continue to think and experiment, for all time and eternity in search of the good life. The problem with which man is faced today is not change itself, but the rate of change. . . ."

"Not a day passes without an announcement of a new development in technology which will change our lives, frequently beyond anything we can imagine, but in these times of changing technology, Bernard Baruch, an outstanding American at the age of 87, reminds us, 'I have witnessed a succession of technological revolutions, but none has done away with the need for character in the individual of the ability to think.' (continued)

...While Frills, Frolic and Fantasy Highlight the Prom

Last year's Prom will certainly be remembered by many people, teachers and students alike. Its romantic, dreamy theme, "Love is Blue," was clearly evident in the beautiful decorations. Peggy McGrath reigned as Queen, and Princesses Sue Bairg, Kim Fellows, Sharon Lee, Debbie MacMillan, Dodi Mahoney, Penny Oke and Mickey Smith made up her court.

Far Left: Queen Peggy
Left: Mr. & Mrs. Day also enjoyed the Prom.

It was a night of dignitaries, speeches and nerves. Left, the platform party, Centre, Mr. William Wood, the guest speaker. Right, Mac Hyslop seemed somewhat nervous as he passed the photographer.

"No cut and dried rules are available to guide you in many of the problems which you will face as young people moving into an ever-more-complex world. In our society each individual is free to conduct the search for answers, for meaning, purpose and commitment in his own way and, if he is lucky, to find the answer that is right for him. Life is a series of challenges and each of you will have to face your own, but there are some guideposts to help you on your way. First, you must believe in yourself and also in others, and you must assume that man is basically good. For success tomorrow, you must work and plan today. You can receive no better advice than that given in the two ancient rules, 'Know thyself' and 'Do unto others as you would have them do unto you'."

Point Pelee Revisited — All

This year, the Grade 13 Biology and Geography students and the Grade 10 Science students visited Point Pelee National Park to study the soil and the terrain, and to observe natural communities and succession. The field trips took place in fall, winter and spring.

For the first group, the trip began with a visit to Jack Miner's.

Commercial Grads Gain Valuable Work Experience

As in previous years, this year's graduates of the 4-year Business and Commerce course participated in the Work Experience Programme. For several days, the students of Classes 12G and 12H had the opportunity of working at some store, factory, or other business in Windsor to get acquainted with the jobs available to them. It is hoped that they profited well from the experience.

* A message from Chrysler Canada Ltd. to all you young men and women who will come of driving age this year. *

Thrill of a lifetime: First solo in the family car.

Your province says you're old enough to drive.

You have a driver's licence.

Your dad says you can take the car.

You're on your own—no big person to tell you what to do, how to do it, where to go, how fast to go there.

Turn the key—Put'er in drive . . . Step on the gas . . . and let her roll.

What are we waiting for?

● We hope you're waiting for a few words—not a lecture nor a scolding—from a company that makes cars for a lot of dads like yours.

The first time you take out the Family Car you put yourself in the situation that separates Kids, with merely a licence to

drive, from Young Grown-Ups with moral driving responsibility, and mental driving good sense.

You may have the quickest reflexes in your block and 20-20 vision, but if you don't have 50-50 respect for other cars and drivers on the road and for the money your dad has put into that car you're neither old enough nor good enough to drive. No matter what that driving licence says.

You're starting to drive in an age when cars are built stronger, handle better and drive safer, but even a Sherman tank or an armored Brink's truck can't stand up against some of the dumber drivers and red-hot speeds on Canadian roads today.

You're the country's driving hope. The only real chance motorists and motoring have for the future is that young drivers coming on our roads today will be better, safer, more responsible drivers than their fathers or mothers.

There is no reason why they shouldn't be.

As one teenager, recently quoted in a newspaper, says, "We teenagers are good drivers. The only trouble is that because we're so good, some of us get too sure of ourselves and take too many chances." Let's look at it this way: The first time you take out the family car on your own, you're boss of thousands of dollars' worth of steel, rubber, aluminum and glass.

It has everything it takes to get you somewhere and back—except a brain.

Don't forget that's the most important thing about driving—and the brain is you.

One dumb driver can cause an accident, but when two dumb drivers meet, there isn't a prayer. You be the smart one.

There are a dozen ways a kid can show he's growing up, but the surest way to judge him is "Does he drive Grown-Up Style—really grown-up?"

THE SECRETARIAL STAFF

The school secretaries, Mrs. Carnegie, Mrs. Tessier, Mrs. Skanes, Miss Jankovic, Miss MacKenzie, and Mrs. Hellam (who was not present for the picture) are busy all year serving both students and staff. At the far right, Miss MacKenzie waits on a rather glum-looking Derek Johnson and on Adine Rogers. However the ladies do get time for play, as shown in the sequence below. Apparently they were just playing with the rocket ship, and something broke. Mrs. Skanes tries a fast repair job with ye olde glue.

Mr. Wenger and Mr. MacMillan posed in the boiler room.

CUSTODIAL STAFF

Mr. Wenger and his custodial staff are responsible for keeping R.S.S. neat and clean. They work very hard at this, unfortunately with little or no help from we "habitually messy" students.

At the far right, a weary Mr. Ireland (above) asks, "What are you doing here on a holiday?" while Mr. Chadwick warns, "Feet off the lockers!"

The janitors' best friend.

School Services are All-Important to Efficient Administration

KITCHEN STAFF

Our Kitchen Staff, the six cheerful ladies above, come to us from Versafood Services. They are, from the left, Mrs. Alexander, Mrs. Frederick, Mrs. Berry, Mrs. Volker, Mrs. McGee and Mrs. Whitaker. Every day, these ladies work hard during all three lunch periods to provide us with puddings, jellos, other desserts and beverages, as well as hot hamburgers, french fries, soups, and so on.

John Tuz savours his french fries, down to the last one.

The Rebelogue Staff wishes to extend much appreciation and many thanks to BULMER TYPEWRITER COMPANY for lending us, free of charge, the typewriter by which much of the copy in this yearbook was typed.

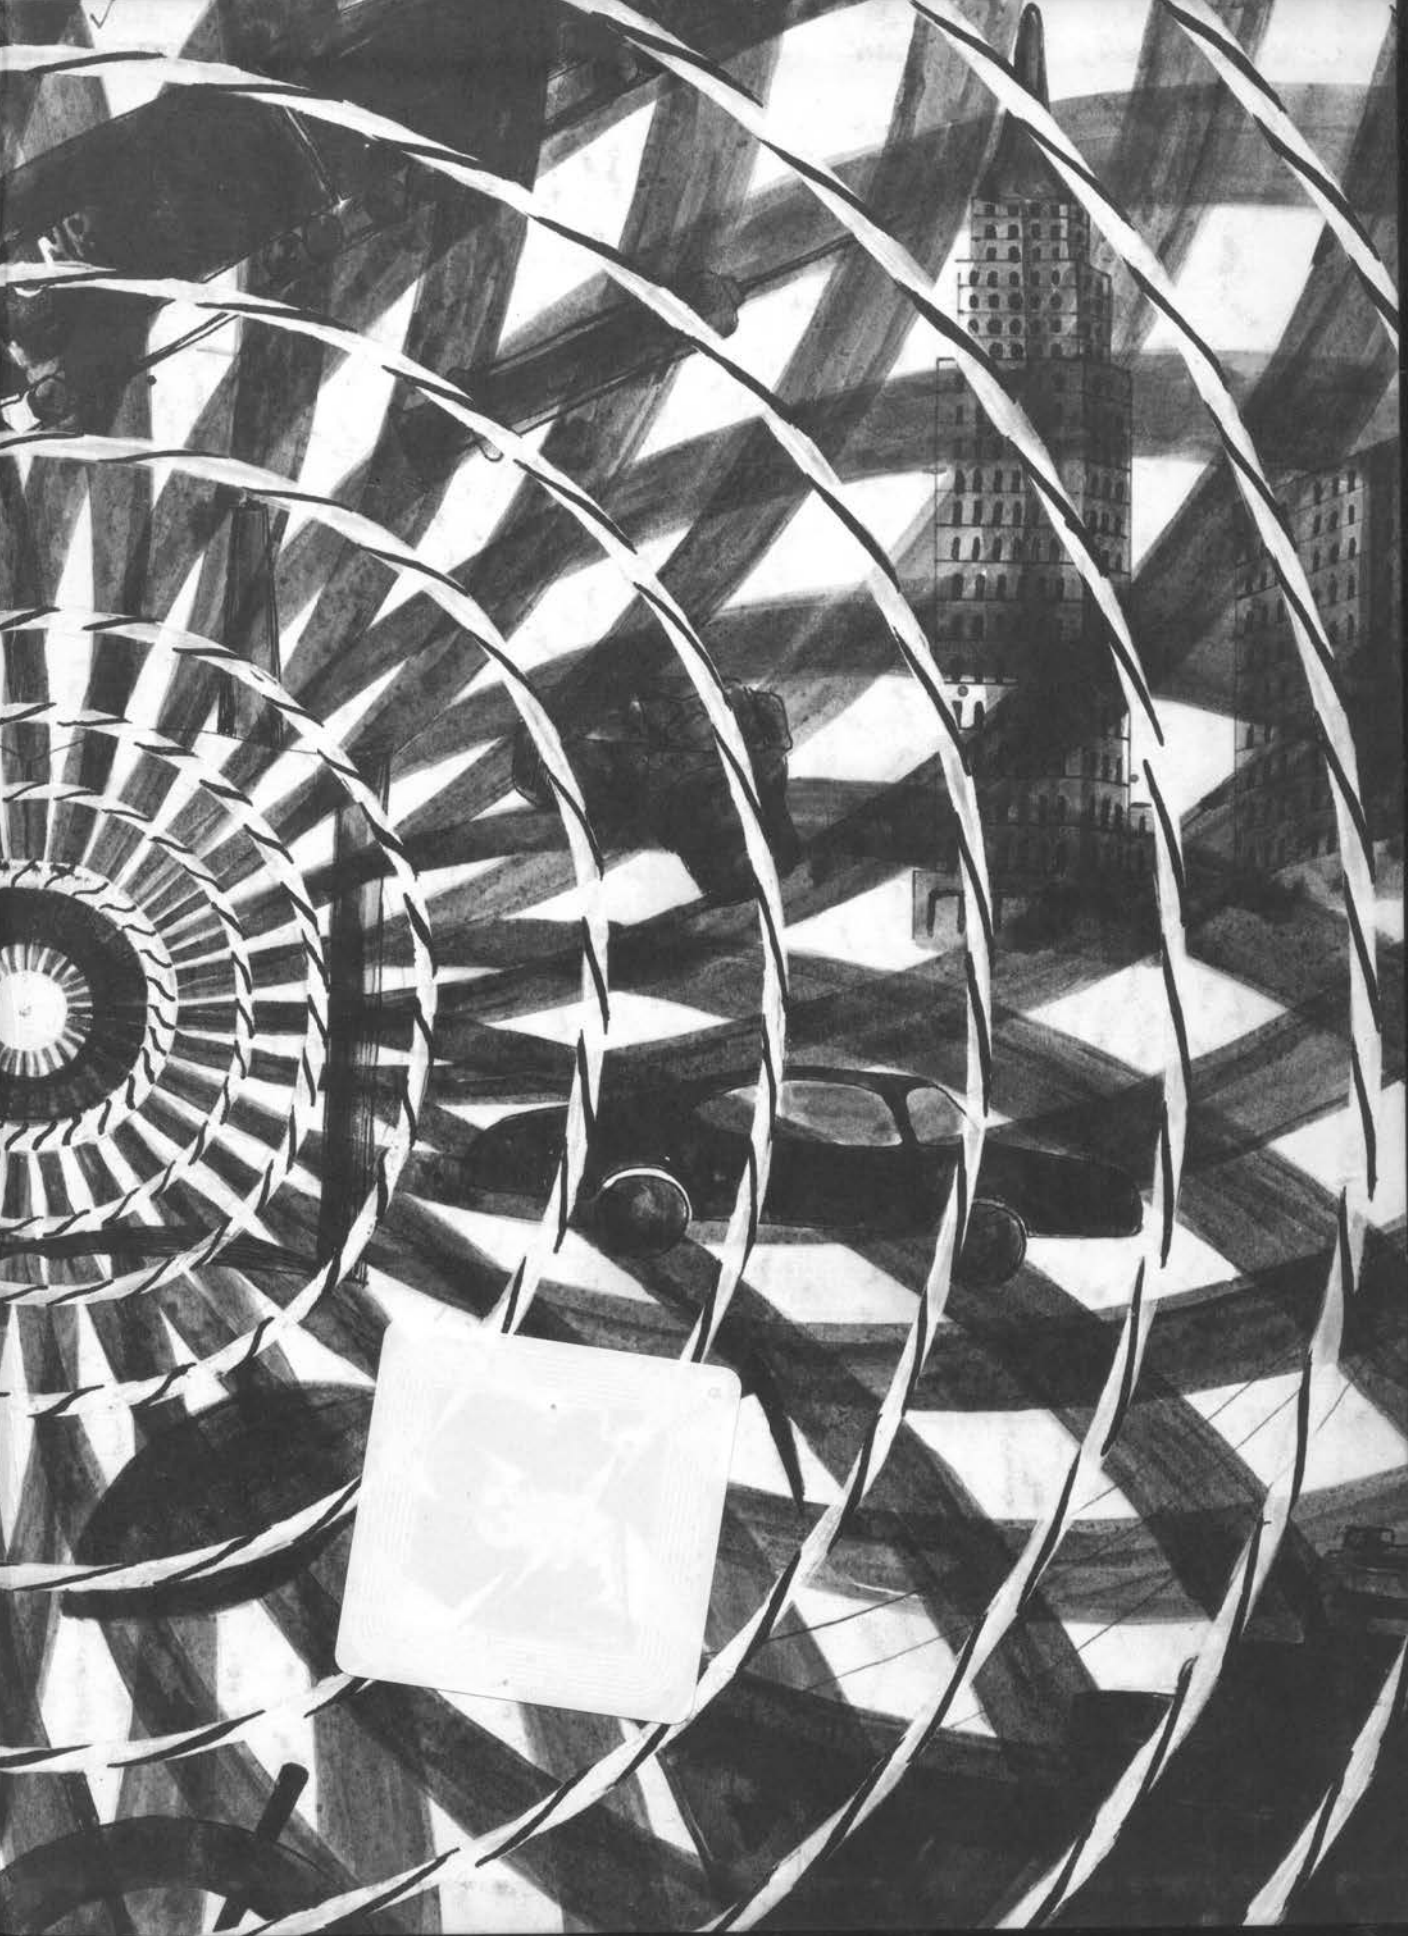

A year of your lives has now past. Remember it; cherish it: it can never be again. Many of you now leave R.S.S. for bigger and better places. Wherever you go, whatever you do, always remember: make the most out of life, experience living; do your best to get involved. And now.....good luck to you all.
